

February 2026 Monthly Round Up

Welcoming New Leadership

We were delighted to welcome James, our new *Head of Sales & Marketing*, to the Foresolutions team. James brings a wealth of experience and energy, and we're excited about the direction we're heading with his leadership driving our growth strategy.

Industry Engagement

Our Managing Director attended the GHI Safety Conference, connecting with industry leaders and staying at the forefront of safety innovation and compliance which is something we're deeply committed to.

On-Site Technical Support

Our Sales Executive was called out to a large irrigation site experiencing ongoing radio communication challenges. Supporting clients in real-time and solving complex communication issues is exactly what we do best.

Strengthening National Partnerships

We carried out a comprehensive site survey with one of our national contract accounts, continuing to build strong, proactive relationships and ensuring solutions are aligned with operational needs.

Business Development in Action

Our Business Development Director attended *The Enemy Within* event at Guildhall, London, gaining valuable insights and strengthening key industry connections.

Collaboration & Innovation

We welcomed Flex Digital for a productive visit, exploring collaborative opportunities and digital advancements within our sector.

RFID Training Success

The team also completed fantastic RFID training, further enhancing our expertise and expanding the solutions we can confidently deliver to clients.

Smarter Equipment Tracking for the NHS

At Foresolutions, we're proud to be introducing the Stikaway adhesive tracking sticker — a simple, effective solution for managing smaller medical equipment across NHS environments.
